# Foam Cleaning Equipment

PumpSet Freq. 25bar 120/250/420/525 Pr IE5

Medium Press. PRESS. supply. Transmitter

Item no.: 91110/ 91120/ 91130/ 91140

PumpSet Freq. 25bar 420/525 and optional GO-remote. Stop-Function control

# Purpose and use

The PumpSet Freq. 25bar 120/250/420/525 Pr IE5 is compact and designed for easy use and service. It is normally floor or wall mounted and is for sites that require cleaning by high pressure. Water supply from a Tank.

Basically it is very simple to use. When there is a demand for water, it automatically starts activated by a flow switch. When there is no more need for water, it automatically stops.

It is built for supplying pressure boosted water to Injectors, Aut.Satellites and other cleaning equipment.

#### Features / benefits

Functions: Frequency controlled automatic booster pump for high

pressure cleaning etc. in harsh environment

Operator friendly: Easy understanding of the functions

LED indicators for status and Alarm

Automatically control: Starts automatically on demand for water. It stops

slowly (~30 sec) when there is no need for water.

Motor and pump is over heat protected.

Options: Hand held remote control: Grundfos GO. Duty Standby

Item no.: 91110/ 91120/ 91130/ 91140

# **General Description**

The Frequency controlled PumpSet Freq. 25bar 120/250/420/525 Pr IE5 is built to boost the water pressure for foam cleaning equipment such as Injectors etc. The system is made mostly of stainless steel so it is robust against harsh environments.

As standard a non-return valve is mounted in the water outlet to secure the pump and the water supply system against pressure shocks. A filter is mounted in the water Inlet.

The control system automatically starts the pump when there is a demand for water. The frequency control system makes the pump go from OFF to full load in a few seconds. When there is no need for water it automatically stops slowly. This way of start-up and slow down makes it more comfortable for the cleaning operator. Besides that, it avoids high current shock in the power supply system.

The unit is programmable by the optional remote control MI301 / M201 and an App on an Android or iOS smartphone.

## **Ordering Information**

All orders will be acknowledged by e-mail, unless other special arrangements have been made. Shipping: All correspondence concerning shipping, should be directed: order@scanfoam.com or by phone.

### **Placing Orders and Enquiries**

Correspondence concerning new orders or progressing existing orders, contact: Mr. Anders S. Christensen

## **Technical enquiries**

Enquiries relating to product performance should be directed to:

## **Specifications**

Working area: Boost max: 17 / 19 / 20 / 20 bar

Flow max at 14 bar boost. 120 / 250 / 420 / 525 L/min
No. of users flushing 30L 1 - 2 / 8 / 13 / 18
Start / Stop control: Grundfos Stop Func.

Water inlet: Connection In/Out: 120L-420L: 2" BSP (Female)

Connection In/Out: 525L 2½" BSP (Female)

Limitation: Min. feed pressure. Tank level above 3 meter

Max. feed pressure 6 bar Max. temperature 70 °C

Example: 5bar inlet press. and 19 bar boost give a total: 24 bar

Power supply 3x400 VAC 50Hz

Power consumption max. 6 / 11 / 15 / 22 kW Backup fuse size Aut./T. Max. 20 / 25 / 35 / 50 Amp

Re. dimensioning, always use the local rules.

EU-compliance

Weight: ~125/ 160/199/220 kg

Alarm: Motor over heated; phase drop out

Too low Inlet Pressure, Pump temperature overheat

Information: Red and green LED Alarm, Stand by and Running

**Options:** 

Duty Standby: One pump is running and the other is standby. Item no: 91111

PLC control The PumpSet has several options for remote control.

MI301 / M201 Hand held remote programming and reporting unit by the Grundfos GO App.
